

Competitive Event Finalist
Determination for Written Reports

In the American Enterprise Project, Local Chapter Annual Business Report, Community Service Project, and Partnership with Business Project events, each chapter is eligible to submit a report. District ratings will have no effect on submitting or not submitting reports for state competition.

A screening process will be arranged by the staff in the state office.

The person or persons screening the reports will use the rating sheet topics for each report as the means for reducing the number of entries to ten to be presented to the judges.
